CAREER OBJECTIVE

I'm eager for growth in a dynamic environment, dedicated to contributing as a team player. Passionate about continuous learning and innovation, I strive to drive progress through embracing new technologies and ideas

🔗 TECHNICAL SUMMARY

- Bringing **3 years of experience** in User Interface Development for **Web applications** utilizing a variety of **web-related technologies and libraries**.
- Hands-on experience in development of Object-Oriented web applications using **React JS** and **JavaScript**.
- Proficient in designing and developing with **HTML5, CSS3, SASS, Bootstrap**, and **Tailwind CSS**.
- I have experience in **React Router** for single-page application **routing**, coupled with proficient management of **single-store state** using **Redux Toolkit**.
- Skilled in **debugging** with **Google Chrome Dev Tool**, **React Dev Tool**, and **Redux Dev Tool**, adept at resolving **cross-browser compatibility** issues, and designing **responsive** web pages.
- Proficient in **version control** systems such as **Git** and **GitHub**.
- I have a strong proficiency in **API integration**, efficiently rendering **JSON data** on web pages through the **Fetch API** and **Axios** library
- Completed **freelance projects** with **full ownership**, launching two call center websites with **BigRock**. Developed using **HTML, CSS, and JavaScript**, with seamless **client communication** via **FormSubmit** integration.
- Continuously involved in **side projects** to enhance my skill set, I actively maintain and **upload these projects to GitHub** for ongoing development and visibility, utilizing **Firebase** for **backend support**.
- Enthusiastic to **learn new technologies** by taking on challenging tasks and responsibilities, fueled by a strong desire for knowledge.

EXPERIENCE

- Working as a **Front End Developer** in Spring Infotech Private Limited from **Mar 2021** to **till date**.

EDUCATION

- **B-Tech** in Computer science & Engineering from **JNTUH** (Jawaharlal Nehru Technological University Hyderabad) | **Year** 2016 – 2021

SKILLS

- **Front-End:** React JS | JavaScript | React Router DOM | Redux Toolkit | Axios | REST APIs | JSON | Tailwind CSS | Bootstrap 5 | SASS | CSS3 & HTML5
- **Version Control:** Git | GitHub
- **Backend & Cloud Services:** Firebase Authentication | Firebase Cloud Firestore
- **IDE Code Editor & Design:** Visual Studio Code | Sublime Text | Photoshop

PROJECTS

- **PROJECT 1# : Unity EuroShop**
 - **Client :** IBM
 - **Team Size :** 06
 - **Role :** Front End Developer
 - **Technologies :** React JS, Router, JSON, Redux Toolkit, Tailwind CSS, Git
 - **Project Summary :** A streamlined e-commerce platform uniting European buyers and sellers for seamless online shopping.
 - **Responsibilities :**
 - Participated in **requirement** gathering and coding.
 - Building **reusable** react components that improves code efficiency
 - Integrating **APIs** to fetch and update data in the application.
 - **Collaborating** closely with **UI/UX designers** for user-friendly interfaces and **QA teams** for bug identification and resolution.
 - Managed deployment and **releases using Git** across different environments.
