Technical Summary :

- **4+ years of experience** in Frontend Development with React.js, JavaScript, TypeScript, Redux/Redux Toolkit, and React Native.
- Built and shipped **Microsoft Edge Immersive SoftFRE (edge://customize)**, achieving <1.8s FCP, <2.5s LCP, and 24 ms INP through performance optimizations.
- Proficient in **HTML5, CSS3, Sass, Tailwind CSS, React Router, REST APIs, and Axios.**
- Experienced in building **responsive, accessible, and cross-browser compatible** user interfaces following **WCAG** standards.
- Improved application performance through **lazy loading, code splitting**, and UI optimizations; skilled in **Chrome DevTools** and **Redux DevTools.**
- Working knowledge of **Node.js, Express.js, PostgreSQL, Jest, and React Testing Library.**

Technical Skills :

Frontend	JavaScript (ES6+), TypeScript, React 19, Redux Toolkit, React Router, Axios, React Native
UI Technologies	HTML5, CSS3, Tailwind CSS, Sass, Web Components, Microsoft Fluent UI, FAST Elements, Accessibility (WCAG)
Testing	Jest, React Testing Library
Backend - Working Knowledge	Node.js, Express.js, REST APIs, PostgreSQL, Sequelize ORM
Authentication and integration	JWT, MSAL (Microsoft Authentication Library), Webhooks
Tools and Methodologies	Git, GitHub, Azure Repos, VS Code, Jira, Agile / Scrum

Work History :

- **Software Engineer** | CognitivZen Technologies — Apr 2024 – Present
Frontend/React.js Developer | On-site **Microsoft** [Contract] — 1.5 years
- **Frontend Developer** | Spring Infotech Pvt Ltd. — Sep 2022 – Mar 2024

Education :

- **B.Tech** in Computer Science and Engineering — JNTUH | 2016 - 2021

Professional Experience :

Microsoft — Frontend Developer / Design Engineer

Project #1 – Microsoft Edge Browser (ImmersiveSoftFRE)

Environment: Web Components, Fluent UI, HTML5, CSS3, JavaScript, TypeScript

Built and shipped Microsoft Edge First Run Experience (FRE) via `edge://customize`, enabling theme selection, layout customization, site pinning, and AI-powered theme generation.

- Developed reusable Web Components and integrated REST APIs.
- Achieved <1.8s FCP, <2.5s LCP, and 24 ms INP through performance optimizations.
- Implemented responsive UI, animations, accessibility, and cross-browser compatibility.

Project #2 – Bing Sports Segment

Environment: React.js, TypeScript, CSS3/Sass

Enhanced Bing Sports standings UI with performance improvements and dynamic gradient animations.

- Optimized sports table header performance and animations.
 - Implemented responsive, accessible, cross-device UI.
-

CognitivZen — Frontend / Full Stack Developer

Project #3 – DataZen Analytics Platform

Environment: React.js, Node.js, Express.js, TypeScript, PostgreSQL, Webhooks, Apache Superset

Built an AI-driven Analytics and Reporting Platform for natural language queries, real-time analytics, and data visualization.

- Developed React dashboards with charts, filters, and data export.
- Built Node.js services for asynchronous processing and API rate limiting.
- Implemented token-based authentication.

Project #4 – Demos Campaign

Environment: React.js, Node.js, Express.js, TypeScript, PostgreSQL, Webhooks

Built an Audit Logging System to track security events, user actions, and campaign changes.

- Developed React dashboard with search, filters, and CSV export.
- Built Node.js services and CRUD APIs for audit logging.

Project #5 – Demos Social App | BlueSky

Environment: React Native, TypeScript, CSS

Developed a cross-platform social networking application for Web, Android, and iOS.

- Built reusable UI and integrated AT Protocol APIs for social features.
- Improved performance with lazy loading and prefetching.
